

We are pleased to inform you that Stonex **Cube-link 4.1** version is available today.

Cube-link is a free version of Cube-manager which offers tools for basic data transfer from GNSS receivers and **Total Stations**, graphical and tabular display of raw data and results, some COGO commands, import and export of data using industry standard file formats like DXF, CSV.

Cube-link has a modern ribbon-based interface and implements an easy to use and flexible CAD which allows to display data either in 2D or in 3D views.

The application is available both for 32 and 64 bit Windows™.

## About Stonex

Stonex is one of the world leader company on measurement and survey, with over 80 qualified distributors worldwide.

Thanks to the integration of different positioning technologies and software the wide range of solutions allows to meet the needs of many fields of application and industries, such as: building and construction, land survey and cadastral survey, GIS data collection, 3D Scanning (architecture, archeology, industrial measurements, volume calculations), agriculture and smart farming, land and structure monitoring.

Each geospatial requirement can then be addressed and solved with a Stonex solution.

Joined together with an unbeatable professional expertise Stonex offers a wide range of top quality services, to satisfy all pre-sales and post-sales needs.

Stonex is a part of Beijing UniStrong Science & Technology Co., Ltd, global provider of GNSS, positioning and timing technology for the geospatial market.
