

We are pleased to inform you that **Cube-manager-p** version **4.2** is available today.

Cube-manager is the Stonex solution for the integration and management of data acquired in the field.

The software consists of a base application whose features can be extended by enabling at least one of the following optional modules:

- **P Module** for GNSS Post Processing
- **T Module** for GNSS+TS Topography
- **M Module** for 3D Modelling
- **F Module** for Photogrammetry

Cube-manager-p is the first of the 3 Cube-manager modules that Stonex will present in 2018, while the 4th "F" module will be introduced in the market in 2019.

The application is available both for 32 and 64 bit Windows.

About Stonex

Stonex is one of the world leader company on measurement and survey, with over 80 qualified distributors worldwide.

Thanks to the integration of different positioning technologies and software the wide range of solutions allows to meet the needs of many fields of application and industries, such as: building and construction, land survey and cadastral survey, GIS data collection, 3D Scanning (architecture, archeology, industrial measurements, volume calculations), agriculture and smart farming, land and structure monitoring.

Each geospatial requirement can then be addressed and solved with a Stonex solution.

Joined together with an unbeatable professional expertise Stonex offers a wide range of top quality services, to satisfy all pre-sales and post-sales needs.

Stonex is a part of Beijing UniStrong Science & Technology Co., Ltd, global provider of GNSS, positioning and timing technology for the geospatial market.
