

New Total Stations

We are pleased to announce the release of new Stonex Total Stations series.

R15

R25/R25LR

R35/R35LR

All new TS series have 2" angular precision, integrated Bluetooth and a new EDM.

Thanks to the new EDM, distances up to 5.000 m can be measured with the prism and objects positioned up to 600 m in Reflectorless mode. In addition, the R25LR and R35LR (Long Range) versions have a more powerful EDM increasing the measurement without prism up to 1.000 m.

The Cube-link software to import and export data from TS to a personal computer is included in the bundle of each tool.

About Stonex

Stonex is one of the world leader company on measurement and survey, with over 80 qualified distributors worldwide.

Thanks to the integration of different positioning technologies and software the wide range of solutions allows to meet the needs of many fields of application and industries, such as: building and construction, land survey and cadastral survey, GIS data collection, 3D Scanning (architecture, archeology, industrial measurements, volume calculations), agriculture and smart farming, land and structure monitoring.

Each geospatial requirement can then be addressed and solved with a Stonex solution.

Joined together with an unbeatable professional expertise Stonex offers a wide range of top quality services, to satisfy all pre-sales and post-sales needs.

Stonex is a part of Beijing UniStrong Science & Technology Co., Ltd, global provider of GNSS, positioning and timing technology for the geospatial market.
