

New Rugged Tablets

We are pleased to announce the release of the new Family of Rugged Handheld Devices for Mobile Applications: UT10, UT30, UT50. All new UT rugged handheld devices are available to support demanding industries such as construction, survey, GIS, mapping and other mobile applications.

UT10
6.0"
Android™ 8.0

UT30
8.0"
Android™ 8.0

UT50
10.1"
Windows® 10

All three new UT models provide the latest high-resolution, capacitive touchscreen, and direct sunlight-readable display technology for ease of visibility in all situations.

The devices are designed to be drop-resistant from heights of 1.2m (1.5m for UT10), are rated at IP67 (IP68 for UT50), and are certified to both MIL-STD-810G and MIL-STD-461F military standards to ensure durability in most outdoor or challenging environments.

The UT10 and UT30 are powered by single 8,000mAh and 8,200mAh batteries with Qualcomm Quick Charge™ 3.0 technology while the UT50 offers dual hot-swappable batteries at 2,900mAh each so you can continue working in the field without powering down.

About Stonex

Stonex is one of the world leader company on measurement and survey, with over 80 qualified distributors worldwide.

Thanks to the integration of different positioning technologies and software the wide range of solutions allows to meet the needs of many fields of application and industries, such as: building and construction, land survey and cadastral survey, GIS data collection, 3D Scanning (architecture, archeology, industrial measurements, volume calculations), agriculture and smart farming, land and structure monitoring.

Each geospatial requirement can then be addressed and solved with a Stonex solution.

Joined together with an unbeatable professional expertise Stonex offers a wide range of top quality services, to satisfy all pre-sales and post-sales needs.

Stonex is a part of Beijing UniStrong Science & Technology Co., Ltd, global provider of GNSS, positioning and timing technology for the geospatial market.
