STONEX Announces our range of GNSS Antennas

Lissone (MB), Italy, May 15th 2017

Today Stonex announces the release of our range of GNSS Antennas. Integrating this antennas with Stonex products, you'll be able to do more precise survey works according to your needs. Stonex family of GNSS antennas is designed to enhance and support the performance of Stonex precise positioning receivers. The antennas receive GNSS multi-constellation signals. Each antenna is built to withstand various application and surveying needs.

About Stonex

Stonex is one of the world leader company on measurement and survey, with over 80 qualified distributors worldwide. Thanks to the integration of different positioning technologies and software the wide range of solutions allows to meet the needs of many fields of application and industries, such as:

survey, GIS data collection, 3D Scanning (architecture, archeology, industrial measurements, volume calculations), agriculture and smart farming, land and structure monitoring.

Each geospatial requirement can then be addressed and solved with a Stonex solution.

Joined together with an unbeatable professional expertise Stonex offers a wide range of top quality services, to satisfy all pre-sales and post-sales needs.

Stonex is a part of Beijing UniStrong Science & Technology Co., Ltd, global provider of GNSS, positioning and timing technology for the geospatial market.
