N°12/2017 Stonex

## STONEX Announces the New Cube-m

*Lissone (MB), Italy, October 30<sup>th</sup> 2017*

Today Stonex announces the release of the Stonex Cube-m.

Cube-m is the solution for RTK surveying, stakeout, control and mapping, based on Windows Mobile platform. The software is perfectly integrated with the instruments, ensuring productivity and flexibility in the field. The user friendly menu allows the operator to work very quickly using a stylus pen, the external keyboard or by finger tapping.

Cube-m is compatible with the Stonex S4II controllers and with the Stonex S7G handheld.

Cube-m will be updated for the management of new Stonex GNSS but no new features will be developed.

Please email [cubesuite@stonex.it](mailto:cubesuite@stonex.it) for any communication regarding Cube Suite products. Below you can download the Cube-m software and English manual.

### **About Stonex**

Stonex is one of the world leader company on measurement and survey, with over 80 qualified distributors worldwide.

Thanks to the integration of different positioning technologies and software the wide range of solutions allows to meet the needs of many fields of application and industries, such as: building and construction, land survey and cadastral survey, GIS data collection, 3D Scanning (architecture, archeology, industrial measurements, volume calculations), agriculture and smart farming, land and structure monitoring.

Each geospatial requirement can then be addressed and solved with a Stonex solution.

Joined together with an unbeatable professional expertise Stonex offers a wide range of top quality services, to satisfy all pre-sales and post-sales needs.

Stonex is a part of Beijing UniStrong Science & Technology Co., Ltd, global provider of GNSS, positioning and timing technology for the geospatial market.
