

STONEX Announces the New Cube-connector

Lissone (MB), Italy, October 23rd 2017

Today Stonex announces the release of the Stonex Cube-connector.

Cube-connector is a **FREE Android APP** and it has been developed to connect Android devices to Stonex GNSS receivers.

In order to be connected to the GPS, the Android Smartphone / Tablet must be paired with the GPS by Bluetooth. Once the Bluetooth connection has been established, Cube-connector will replace the GPS readings from the internal device with the ones from the Stonex GNSS receiver.

In this way the customer can use his preferred software for GIS / Survey in Android OS.

Please email cubesuite@stonex.it for any communication regarding Cube Suite products. Below you can download the Cube-connector APK and the English manual.

About Stonex

Stonex is one of the world leader company on measurement and survey, with over 80 qualified distributors worldwide.

Thanks to the integration of different positioning technologies and software the wide range of solutions allows to meet the needs of many fields of application and industries, such as: building and construction, land survey and cadastral survey, GIS data collection, 3D Scanning (architecture, archeology, industrial measurements, volume calculations), agriculture and smart farming, land and structure monitoring.

Each geospatial requirement can then be addressed and solved with a Stonex solution.

Joined together with an unbeatable professional expertise Stonex offers a wide range of top quality services, to satisfy all pre-sales and post-sales needs.

Stonex is a part of Beijing UniStrong Science & Technology Co., Ltd, global provider of GNSS, positioning and timing technology for the geospatial market.
