N°08/2017 Stonex

STONEX Announces the New Cube Suite software platform

Lissone (MB), Italy, September 11st 2017

We are pleased to inform you that during the Intergeo Stonex Dealer Meeting will present the new Cube-suite software platform. Software solutions for the integration of information acquired in the field and data management in the office.

In the meantime, we invite you to download Cube-a, the first product of Cube Suite

This is a field software for the management of the Stonex GNSS developed for Android OS. Cube-a 3.0 version is for free and can be installed on Smartphones and Tablets (Android version 5.1 or higher). During Intergeo we will release the Cube-a 4.0 version with more features than 3.0 version, and available upon payment.

We invite you to share with us your impressions and suggestions in order to contribute to create the best field program.

Please email cubesuite@stonex.it for any communication regarding Cube Suite products.

About Stonex

Stonex is one of the world leader company on measurement and survey, with over 80 qualified distributors worldwide.

Thanks to the integration of different positioning technologies and software the wide range of solutions allows to meet the needs of many fields of application and industries, such as: building and construction, land survey and cadastral survey, GIS data collection, 3D Scanning (architecture, archeology, industrial measurements, volume calculations), agriculture and smart farming, land and structure monitoring.

Each geospatial requirement can then be addressed and solved with a Stonex solution.

Joined together with an unbeatable professional expertise Stonex offers a wide range of top quality services, to satisfy all pre-sales and post-sales needs.

Stonex is a part of Beijing UniStrong Science & Technology Co., Ltd, global provider of GNSS, positioning and timing technology for the geospatial market.
