STONEX Announces the New S10A GNSS Receiver

Lissone (MB), Italy, April 19th 2017

Today Stonex announces the release of the Stonex S10A, the new GNSS Receiver characterized by a new feature that enhance the performances and potential of the field surveys.

Thanks to aRTK™ function and service of Atlas® correction, Stonex S10A is able to work in particularly difficult areas.

Atlas® gives the precise positioning centimetres around the world and delivers world-wide centimetre level correction data over L-band communication satellites and over internet.

Key Features

- 394 Channels
- GPS/GLONASS/BEIDOU/GALILEO
- Atlas L-Band
- Bluetooth, Wi-Fi
- 20 Hz Positioning Tracking
- Radio
- GSM
- Web UI Control
- E-Bubble
- Tilt Centering
- Rugged
- IP67 Protection

Multi Constellation

Stonex S10A with its 394 channels, provides an excellent on-board real-time navigation solution with centimeter accuracy. All GNSS signals (GPS, GLONASS, BEIDOU and GALILEO) are included, no additional cost.

Electronic Bubble

You can measure the points quickly without the perfect verticality of the pole. The receiver can automatically record the positioning data when the electronic bubble detects the correct level, with no action required by the operator.

aRTK™

Thanks to aRTK the receiver is able to continue generating RTK positions in case the land based RTK correction source becomes unavailable for few minutes.

Atlas® Correction Service

Atlas® is a subscription for S10A aimed to achieve different levels of accuracy depending on subscription type that you need.

About Stonex

Stonex is one of the world leader company on measurement and survey, with over 80 qualified distributors worldwide.

Thanks to the integration of different positioning technologies and software the wide range of solutions allows to meet the needs of many fields of application and industries, such as: building and construction, land survey and cadastral survey, GIS data collection, 3D Scanning (architecture, archeology, industrial measurements, volume calculations), agriculture and smart farming, land and structure monitoring.

Each geospatial requirement can then be addressed and solved with a Stonex solution.

Joined together with an unbeatable professional expertise Stonex offers a wide range of top quality services, to satisfy all pre-sales and post-sales needs.

Stonex is a part of Beijing UniStrong Science & Technology Co., Ltd, global provider of GNSS, positioning and timing technology for the geospatial market.
