

STONEX Announces the New S9i GNSS Receiver

Lissone (MB), Italy, April 13rd 2017

After years of great success and thousands of units sold worldwide, the legendary Stonex S9III opens the way to its successor Stonex S9i.

S9i, the intelligent GNSS, takes advantage of the whole experiences acquired by the first S9 to the last S9IIIPlus, adding more and more advanced features, such as:

- WiFi
- Web User Interface
- Dual smart swappable and long life batteries (same battery of S4II C/H)
- E-Bubble
- New multifrequency integrated GPS antenna
- lighter and smaller compared to S9III+
- Available as Network GNSS (no UHF radio inside) and 'full' (GPRS + UHF); the radio upgrade is available for the Network S9i.

About Stonex

Stonex is one of the world leader company on measurement and survey, with over 80 qualified distributors worldwide.

Thanks to the integration of different positioning technologies and software the wide range of solutions allows to meet the needs of many fields of application and industries, such as: building and construction, land survey and cadastral survey, GIS data collection, 3D Scanning (architecture, archeology, industrial measurements, volume calculations), agriculture and smart farming, land and structure monitoring.

Each geospatial requirement can then be addressed and solved with a Stonex solution.

Joined together with an unbeatable professional expertise Stonex offers a wide range of top quality services, to satisfy all pre-sales and post-sales needs.

Stonex is a part of Beijing UniStrong Science & Technology Co., Ltd, global provider of GNSS, positioning and timing technology for the geospatial market.
